COURT CLERK'S OFFICE - TULSA
CORPORATION COMMISSION
OF OKLAHOMA

COMES NOW Applicant and shows the Honorable Corporation Commission as follows:

1. Parties: Applicant is Newfield Exploration Mid-Continent Inc., One Williams Center, Suite 1900, Tulsa, Oklahoma, 74172, who is the owner of the right to drill a well to the common sources of supply named below underlying the lands described in the caption hereof by virtue of valid and subsisting oil and gas leases owned by Applicant covering portions of said land. The name of each party being made a respondent to this Application is as shown on Exhibit "A", attached hereto and made a part hereof.

2. Allegation of Facts:

a. The land described in the caption hereof constitutes a "drilling and spacing unit", as defined by Title 52, Section 87.1, O.S., and as heretofore established by the Commission by an **Order to issue in Cause CD No. 201504386-T** for the common sources of supply also named below; within said "drilling and spacing unit", there are two or more separately owned tracts or there are undivided interests separately owned for which the owners have not agreed to pool their oil and gas interests and to drill and develop the "drilling and spacing unit" and common sources of supply as a unit.

b. Applicant has conducted a diligent and meaningful search of the local county assessor's records, county treasurer's records, and county deed records regarding the property involved for return addresses on recorded instruments, county probate records and city and county telephone directories and other sources of such information to locate each respondent and has made a bona fide effort to reach an agreement as to the development of the unit with each respondent located by such search.

c. Applicant has drilled or proposes to drill a well on said "drilling and spacing unit" to test the common sources of supply named below and the avoiding of the drilling of unnecessary well, the prevention of waste, and the protection of correlative rights require that the Commission order all owners to pool their interests and to drill and develop the "drilling and spacing unit" and common sources of supply as a unit.
