COURT CLERK'S OFFICE - TULSA
CORPORATION COMMISSION
OF OKLAHOMA

APPLICATION

COMES NOW Applicant and shows the Honorable Commission as follows:

1. Parties: Applicant herein is **Midstates Petroleum Company LLC, 321 S Boston, Ste 1000, Tulsa, OK 74103 (918) 947-8513**. The attorney for the Applicant is Michael D. Stack, 943 East Britton Road, Oklahoma City, Oklahoma 73114; Telephone (405) 286-1717, Fax (405) 286-2122. The names and addresses of each person or governmental entity, other than the Applicant, currently having the right or claiming to have the right to participate in production from the common source(s) of supply defined below are set forth on Exhibit "A" attached hereto and made a part hereof.

2. Facts:

2.1 Applicant has the present right to drill in **Section 17, Township 25 North, Range 14 West, Woods County, Oklahoma**. Said unit was designated as a 640-acre horizontal drilling and spacing unit for production from the **Mississippi Lime** common source(s) of supply.

2.2 Currently, there is a horizontal well completed, or to be completed, in the above-described common source(s) of supply underlying the captioned unit.

2.3 Since the date of entry of the drilling and spacing unit(s) additional or new data has been obtained in connection with the separate common source(s) of supply sufficient to show a substantial change in conditions or change in knowledge of conditions existing in said unit(s). It appears that one horizontal well will not and cannot effectively and efficiently drain all of the primarily recoverable hydrocarbons in such separate common source(s) of supply underlying such land. Therefore, the Commission should increase the well density for the above common source(s) of supply as an exception to **Order No. 161084** for the drilling of two additional wells in the captioned drilling and spacing unit(s).

2.4 Applicant, or some other party recommended by Applicant, requests the Commission to authorize and permit two additional wells in the unit to produce hydrocarbons from the common

source(s) of supply, and the Commission should establish a proper allowable for such well(s) and such unit(s).

3. Legal Authority: Title 52, Sections 86.1, 87.1; Title 17, Sections 270 and 271; OCC-OGR Rule 165:10-19-3, OCC Rules of Practice.

4. Relief Sought: Applicant requests the Commission to enter an order, to be effective as of the date of the execution thereof or as of a date prior thereto, authorizing and permitting two additional wells in the drilling and spacing unit(s) formed for the above common source(s) of supply in the captioned unit(s). The Applicant further requests the authorization and permission to allow the additional wells to produce hydrocarbons from such common source(s) of supply and to establish a proper allowable for said wells

WHEREFORE, Applicant prays that, after notice and hearing as required by law, the increased well density as requested by Applicant, be permitted.

Respectfully submitted,

MICHAEL D. STACK, P.C.

By: _____
