2. Allegation of Facts:

a. the drilling and spacing unit which can effectively and efficiently drain the portion of the common source of supply (reservoir) covered by such drilling and spacing unit.

d. Applicant has conducted a diligent and meaningful search of the local county assessor's records, county treasurer's records, and county deed records regarding the property involved for return addresses on recorded instruments, county probate records and city and county telephone directories and other sources of such information to locate each respondent.

3. Legal Authority: Title 52, Section 87.1, O.S.

4. Relief Sought: That Applicant requests that the Commission enter its order **extending Order No. 640729** insofar as it established a 640-acre horizontal drilling and spacing unit for the **Mississippian (less Chester) and Woodford** common sources of supply underlying Section 27, Township 16 North, Range 9 West, Kingfisher County, Oklahoma to include Section 34, Township 16 North, Range 9 West, Kingfisher County, Oklahoma. The Mississippian (less Chester) common source of supply is a conventional reservoir and as such the completion interval for a horizontal well in a horizontal well unit shall be located not less than 660 feet from the boundary of the 640-acre horizontal unit. The Woodford common source of supply is an unconventional reservoir and pursuant to OAC 165:10-29-2 the completion interval of a horizontal Woodford well drilled in a horizontal well unit shall be located not less than 165 feet from any north/south unit boundary and not less than 330 feet from any east/west unit boundary.

There is no production from any non-horizontal well in the unit.

The horizontal well unit may exist concurrently with any previously formed non-horizontal drilling and spacing unit, or any part thereof, and each such unit may be separately developed in that a well may be drilled into, completed in and produce hydrocarbons from the same common source of supply in each such concurrently existing unit with production from such well to be governed by and allocated pursuant to the applicable unit. Therefore, the following order is not being vacated:

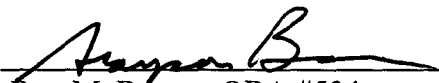

Order No. 114461 insofar as it established a 640-acre drilling and spacing unit for the Upper Chester common source of supply underlying Section 34, Township 16 North, Range 9 West, Kingfisher County, Oklahoma.

5. Special Provision: The relief requested herein may be made effective prior to the issuance of this Order.

WHEREFORE, Applicant prays that after notice and hearing as required by law, the drilling and spacing unit as requested by Applicant, with appropriate well locations and exceptions thereto, be ordered.

Respectfully submitted,
